Duka Copilot

Five-Minute Demo Voice-Over Script

Video: `duka_demo_5min.mp4` | **Duration:** 4:54 | **Resolution:** 1080p

Delivery: Relaxed, clear, and conversational | **Target pace:** Approximately 140 words per minute

---

Recording instruction: Screen directions are provided for reference only and should not be read aloud.

1. Landing Page 0:00–0:09

On screen: Duka Copilot landing page.

> "Meet Duka Copilot: smart books for African micro-businesses. It is built for the shop owner who runs everything from an M-Pesa till."

2. Sign-Up and OTP Verification 0:09–0:22

On screen: Create-account form followed by phone verification.

> "Getting started takes a minute. Sign up with your phone number, verify with a one-time code sent by SMS, and you are in."

3. Business Setup 0:22–0:32

On screen: Business profile form.

> "First, tell Duka about your business: its name, sector, and expected monthly revenue."

4. Recurring Expenses 0:32–0:48

On screen: Adding rent and electricity, followed by the expense list.

> "Then add the bills you pay regularly, such as rent, electricity, and salaries. Duka tracks each due date and warns you before anything becomes overdue."

5. Owner PIN and Payment Limits 0:48–0:58

On screen: Owner PIN, payment limits, and preferences.

> "You stay in control. Set an owner PIN, together with per-payment and daily spending caps, so no money moves without your approval."

6. Statements and Dashboard 0:58–1:14

On screen: Uploading a statement or selecting a demo business, followed by the home dashboard and ledger.

> "Upload your M-Pesa or bank statement, or try a demo business. In seconds, Duka turns raw transactions into a clear picture: money in, money out, net cash flow, and

anything that needs your attention."

7. Analytics and Financial Health 1:14–1:42

On screen: Business health dashboard, charts, and financial health score of 20 out of 100.

"Analytics shows monthly profit and loss, spending by category, and your top trading partners. The Financial Health dashboard gives you a score out of 100, alongside liquidity, margins, and growth. Here, it flags a risk and explains both why it matters and what to do about it."

8. Customer Intelligence and Churn 1:42–1:57

On screen: Customer segments and the churn early-warning table.

"Customer intelligence groups your buyers into segments and warns you when a loyal customer starts to slip away, while there is still time to win them back."

9. Point of Sale 1:57–2:15

On screen: Point-of-sale dashboard, quick sale, and recent sales.

"Duka also runs your counter. The point-of-sale screen records a sale in a few taps, whether by cash, M-Pesa, or credit. Every sale flows straight into your books."

10. Invoicing and Inventory 2:15–2:39

On screen: Invoice and quotation forms, followed by inventory valuation.

"Create professional invoices and quotations with VAT applied automatically. Inventory tracks stock movements, reorder alerts, and the value of everything on your shelves."

11. Tax and KRA Reporting 2:39–2:53

On screen: VAT chart and October VAT report.

"Tax season becomes less stressful. Duka prepares your VAT report from your sales, ready for your KRA filing."

12. Auto-Detected Expenses and Budgets 2:53–3:15

On screen: Automatically detected recurring payments and budget-versus-actual spending.

"Duka can even analyse your statement to identify recurring payments. Confirm them with one click, then compare your budget against actual spending, category by category."

13. Standing Orders and Approvals 3:15–3:30

On screen: Standing-orders form and Approvals page.

"Set up standing orders for regular payments. Anything above your limits waits in Approvals until you sign off."

14. Cash-Flow Forecast 3:30–3:50

On screen: Liquidity runway chart and cash-shortfall warning.

"This is where Duka really earns its keep. The cash-flow forecast simulates the weeks ahead and shows when cash may run short, along with practical steps to help you avoid it."

15. Spending Advisor 3:50–4:02

*On screen: Purchase decision screen showing the verdict **WAIT**.*

"Planning a big purchase? Ask the Spending Advisor. Here, it says wait. With bills due in the next two weeks, buying now would break your safety buffer."

16. Financing Advisor 4:02–4:16

On screen: Loan comparison, effective annual rates, and top recommendation.

"And if you need credit, Duka compares digital loans by their true annual cost, not just the headline fee, and recommends an option you can afford."

17. Audit and Compliance 4:16–4:27

On screen: Payment-limit audit, privacy, and compliance screens.

"Every limit and payment is audited, and you can see exactly what data Duka keeps about your customers."

18. Ask Duka Copilot 4:27–4:37

On screen: Typing the question: "Which bills are due this week?"

"Finally, just ask. Type a question in plain English or Swahili. For example: which bills are due this week?"

19. AI Answer and Closing 4:37–4:54

On screen: Copilot lists the bills, loan repayments, amounts, and total due.

"Duka Copilot reads your books and answers instantly, listing every bill, its amount, and its due date, with a total for the week.

Duka Copilot: your business, amplified."

Recording Notes

- **Pacing:** Aim for a relaxed, conversational delivery. Let important figures and recommendations register with the viewer.
- **Timing:** Follow the timestamps as closely as possible. If a section runs long, remove its second sentence before accelerating the narration.
- **Screen directions:** These are production cues only; do not read them aloud.
- **Audio alignment:** Record while watching the video, or insert approximately 0.5 seconds of silence before the first spoken word to prevent clipping.
- **Closing:** Deliver the final tagline clearly, then leave a brief pause at the end.
